**Combine and visualize international periodically updated estimates of
COVID-19 pandemic
at the country level, countries without subnational level estimates
Iran**

Based on uptake 20220225 in <https://github.com/pourmalek/covir2>

JOHN HOPKINS only in uptake 20220225.

IHME and IMPE models have not been updated since the previous uptake of covir2, and the SRIV model updated estimates are highly implausible.
